Universal Coin.com ^{Est. 1994}®

Welcome Message

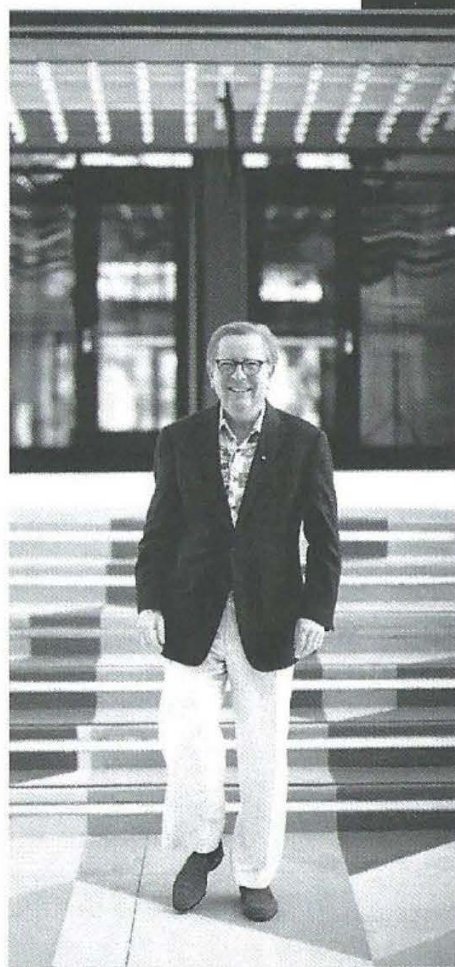

from President Uram

On behalf of the Board of Governors of the American Numismatic Association, I extend a warm welcome to this 133rd Anniversary Banquet!

It's hard to believe that another World's Fair of Money® is drawing to a close. I trust you had the opportunity to explore not only the bustling show floor and engage with your favorite dealers, but also to attend enlightening talks, peruse our museum exhibits, connect with our international friends at the World Mints area, and join us for the Coin of the Year awards presentation.

Looking ahead, the ANA is eager to build upon the successes of this past year. It has been a thrilling period marked by the launch of many fantastic new programs. As an ANA member, take pride in knowing that our organization is committed to offering top-notch resources for an ever-changing community.

Equally important are our top-notch members who embody the ANA's educational mission. Tonight, we honor just a handful of these dedicated individuals with service awards. Their commitment to advancing numismatics strengthens the ANA and enriches the collector experience. These individuals are invaluable ambassadors for our community, providing generous financial support and their time, which is truly priceless. Congratulations to this year's recipients!

Sincerely,

Thomas J. Uram
63rd ANA President

Menu

SALAD

FRESH FIG SALAD

Arugula, Mesclun, Fresh Figs, Goat Cheese, Toasted Pecans and Red Onion

Served with Citrus Vinaigrette

ENTRÉE

PETITE FILET

with Blackberry Demi-Glace

Exhibit Awards

**Charles H. Wolfe Sr. Memorial Award
for YN Best-of-Show Exhibit**

**Radford Stearns Memorial Award for
Excellence in Exhibiting**

**The Howland Wood Memorial Award
for Best-of-Show Exhibit**

Burnett Anderson

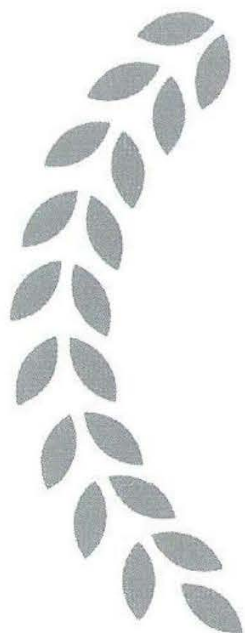

**Memorial Award for Excellence
in Numismatic Writing**

Dr. Ute Wartenberg

The Burnett Anderson Memorial Award for Excellence in Numismatic Writing recognizes a researcher, author, or journalist for their body of work. First conferred posthumously on its namesake in 1999, the award celebrates quality and integrity in numismatic wordsmithing. The award selection is a cooperative process by the ANA, the American Numismatic Society (ANS), and the Numismatic Literary Guild (NLG). This year's recipient is Dr. Ute Wartenberg, Research Curator and President of the American Numismatic Society.

For most of her career, Wartenberg served as Executive Director of the ANS. Her first professional appointment was in 1991, where she worked for seven years as Curator of ancient Greek coins at the British Museum in London. Wartenberg began her undergraduate studies in history, Classical Archaeology, and Greek literature in Saarbrücken, Germany. A Rhodes Scholar, she completed a DPhil in Classics at Oxford University. Wartenberg has curated exhibitions at the British Museum and the Federal Reserve Bank of New York, which cover subjects from coinage in the Peloponnesian War to the fight of the US Secret Service against counterfeit money. As part of her public service, she has been a member and chair of several committees and boards including the German Rhodes Scholar Selection Committee, the Citizens Coinage Advisory Committee, the International Numismatic Council, and the International Committee for Money and Banking Museums. Wartenberg is a Numismatic Ambassador (2001), a Fellow of the Society of Antiquaries (2008) and recipient of the Ehrenpreis der Gesellschaft für Internationale Geldgeschichte (2015).

ANA Philanthropy Award

Eric P. Newman Numismatic Education Society (EPNNES)

Eric P. Newman (1911-2017) established EPNNES in 1958 as a private foundation. It supported the hobby through a variety of efforts, including the publication of Newman's books and manuscripts. In 2014, it launched the Newman Numismatic Portal (NNP), an online repository of numismatic content. Administered by Washington University in St. Louis and underwritten by EPNNES, the site offers free access to the largest online library of American numismatic literature and archival resources. It currently has over 200 partners, representing regional and specialty clubs, as well as individual authors, and is an invaluable resource for hobbyists and researchers. Since 2019, EPNNES has been offering yearly grants to authors engaging in original research in American numismatics. EPNNES has made significant financial contributions to the ANA's Summer Seminar and Young Numismatist Scholarship Program, as well as other national, regional, and specialty numismatic organizations.

Numismatic Art Award for Excellence in Medallic Sculpture

Heidi Wastweet

The ANA's Numismatic Art Award for Excellence in Medallic Sculpture is an annual honor given to an artist whose lifetime work in the field rises above all others. The 2024 recipient is Heidi Wastweet, a leading American medallist and sculptor who specializes in bas-relief, from cast and struck medals to public monuments. In conjunction with a wide variety of private mints, she has produced over 1000 coins, medals, and tokens since 1987. Wastweet was chief engraver for Sunshine Mint for 11 years and lead designer/sculptor for Global Mint for 5 years. She served on the Citizen's Coinage Advisory Committee for the U.S. Mint from 2010 to 2018. She is currently President of AMSA, the American Medallic Sculpture Association; a member of FIDEM, the international organization of Medalists; and an elected member of NSS, National Sculpture Society.

Harry J. Forman Dealer of the Year Award

Richard E. Snow

The Harry J. Forman Dealer of the Year Award recognizes a professional numismatist who shows uncommon dedication to strengthening the hobby and the ANA; exhibits high ethical standards and integrity; and is committed to treating customers fairly and consistently.

Richard "Rick" Snow specializes in U.S. small cents of 1857-1909. His concern for the collector is evident at his shop, Eagle Eye Rare Coins, in Tucson, Arizona. When they opened 32 years ago, Snow and his business partner began reevaluating cents graded by third parties. They attached a sticker to the holder of those they agreed had proper designation. This became the model for Certified Acceptance Corporation's (CAC) "green bean" stickers.

In 1990, Snow founded the Flying Eagle and Indian Cent Collectors' Society (aka the "Fly-In Club"), which has around 400 members. He has also authored several books on the topic and teaches regularly at the ANA's Summer Seminar in Colorado Springs. Snow is a past recipient of the Glenn Smedley Memorial Award (2007), the Numismatist of the Year (2010), and an ANA Presidential Award (2021).

Elvira Clain-Stefanelli Memorial Award for Achievement in Numismatics

Nancy J. Wilson

The Elvira Clain-Stefanelli Memorial Award for Achievement in Numismatics is presented annually to a woman who has made significant contributions to numismatics through her research, leadership, and/or mentorship, and who has demonstrated a longtime commitment to the betterment of numismatics. This year's recipient, Nancy J. Wilson, is a lifetime hobby ambassador and friend to all.

Wilson is half of the power couple known simply as "John and Nancy," but has significant accomplishments in her own right. She served on the ANA's Board of Governors from 1987-1995, and has received the Howland Wood Memorial Award for Best-in-Show Exhibit (1984), the Glenn Smedley Memorial Award (1995), the Medal of Merit (1997), and the Century Club Award given to those who have recruited 100 or more members (2003, 2014, 2015). With John, she has earned six Member Booster Awards (an award now named in their honor), the Farran Zerbe Memorial Award for Distinguished Service (2007), and the ANA Philanthropy Award (2023).

Numismatist of the Year

Douglas Winter

The Numismatist of the Year award recognizes collectors at the regional and/or national level who have demonstrated outstanding leadership within the hobby and the ANA. The 2024 recipient is numismatic author and U.S. gold coin expert Douglas Winter.

A member of the ANA since 1973, Winter has published over a dozen specialty guides and essential references for collectors. He founded Douglas Winter Numismatics in 1989 after years of researching, buying, and selling rare U.S. gold coins. By 1992, his company was recognized as one of the leading specialized numismatic firms in the Pacific Northwest. Winter has taught classes at the ANA's Summer Seminar and is a member of many numismatic organizations, including the Numismatic Literary Guild, Numismatic Guaranty Company, and Professional Coin Grading Service. He is a longtime supporter of the ANA and continues to publish articles and newsletters about collecting U.S. gold coins.

Lifetime Achievement Award

Bob Campbell

Utah native Bob Campbell has been a numismatic professional in Salt Lake City for 44 years. He served one term on the ANA's Board of Governors (1997-1999) before becoming its President (1999-2001). An instructor of "Counterfeits, Alteration Detection & Problem Coins" since 1995, Campbell became an Honorary Doctor of Numismatics at ANA's Summer Seminar in 2016. He is the lead authenticator for the Anti-Counterfeiting Task Force and provides instructional seminars to federal agents.

Campbell is a member of over 40 national numismatic clubs and professional organizations including ANS, CSNS, FUN, NTCA, PNG, and TAMS. In 2007,

Campbell chaired the state committee to select potential designs for Utah's entry in the U.S. Mint's 50 State Quarters® program. He has contributed to *A Guide Book of United States Coins* (the "Red Book") and the Coin Dealer Newsletter. His 2014 book *Utah Trade Tokens*, considered the go-to reference on the topic, received a Numismatic Literary Guild award for "Best Token and Medal Book."

Numismatic News recognized Campbell as a Numismatic Ambassador in 1988. ANA has previously honored him with a Presidential Award (1999), the Century Club Award (2000), the Goodfellow Award (2001), the Glenn Smedley Memorial Award (2001), and the Medal of Merit (2019).

Chester L. Krause Memorial Distinguished Service Award

Dwight N. Manley

Dwight Manley became interested in numismatics at age six when he found a 1909 Lincoln cent. After joining the ANA in 1981 and with encouragement from then-Governor Florence Schook, he received a scholarship to attend Summer Seminar. His experience there launched his numismatic career. Manley opened Spectrum Numismatics in 1990 and eventually handled such major rarities as the King of Siam 1804 proof set and two of the five 1913 Liberty nickels. By 1999 representing the California Gold Marketing Group, he negotiated the purchase of most of the treasure recovered from the wreck of the *SS Central America*. He built a magnificent exhibit of the ship and its cargo, the "Ship of Gold," which made a high-profile debut at the 2000 World's Fair of Money® in Philadelphia and led to record-breaking public attendance. Manley funded *A California Gold Rush History: Featuring the Treasure from the SS Central America* by Q. David Bowers; and produced a one-hour documentary for the History Channel on California gold rush history and its connection to the *SS Central America*, narrated by Charlton Heston.

Manley turned his success into philanthropy, donating \$250,000 in 2003 to renovate the ANA's numismatic library, now named in his honor. In 2008, he established the Florence Schook School of Numismatics. In 2021, Manley gave the ANA a collection of Washingtonia assembled by William

Spohn Baker deaccessioned by the Historical Society of Pennsylvania that he acquired at auction. Manley enhanced the collection with additional objects, most notably a spectacular and rare 1795 middle-size engraved silver Washington Indian Peace Medal—one of only five known—and a uniface gold Washington funeral medal from 1800 produced by Jacob Perkins. In 2022, Manley donated a group of sixty books, auction catalogs, photos, and research notes assembled by Walter Breen, acquired from the Sydney F. Martin Numismatic Library Collection. In 2023, he gave ANA one of only six known surviving copies of Thomas Jefferson's 1790 *Report of the Secretary of State, on the Subject of Establishing a Uniformity in the Weights, Measurements and Coins of the United States*.

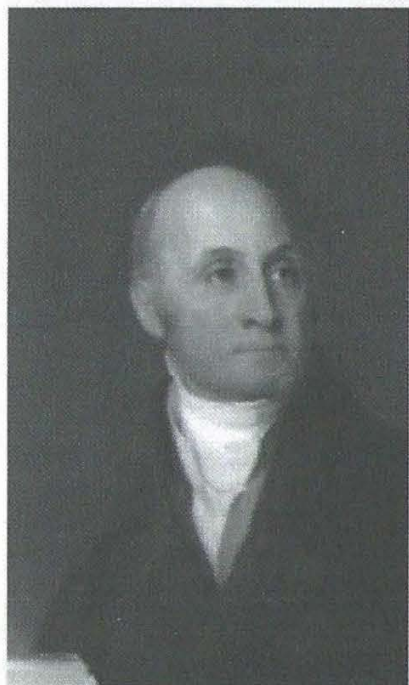

Manley's numismatic involvement includes the Garden Grove Coin Club, the Orange County Coin Club, the National Silver Dollar Roundtable, PNG, and ANS. *Coin World* listed Manley as one of The Most Influential People in Numismatics: 1960-2020 (pub. 2021) and in their *Coin World* Annual 100 Most Influential People in Numismatics in 2022 and 2023. *COINage* lists Manley in their "Top Fourteen Numismatists of the Century." Manley's ANA honors include a Presidential Award (2000), the Glenn Smedley Memorial Award (2004), the Medal of Merit (2005) and the ANA Philanthropy Award (2018).

Numismatic Hall of Fame – Historic Era

Dr. James Mease (1771–1846)

Born August 11, 1771, James Mease was a prominent American scientist, horticulturist, and doctor from Philadelphia. He received his bachelor's degree from the University of Pennsylvania in 1787 and completed his M.D. in 1792.

Mease published articles in his early medical career and was a surgeon during the War of 1812. However, his contributions to medical knowledge were less significant than his many contributions to other fields. Mease edited the well-received *Domestic Encyclopedia* in 1803–1804, and the two-volume *Archives of Useful Knowledge* (1811–12).

He was better known for *The Picture of Philadelphia* and his *Geological Account of the United States* (1807), which was among the earliest geological treatises by an American. Mease also published the first tomato-based ketchup recipe in 1812, an innovation likely inspired by a recipe for tomato sauce that appeared in an infamous English cookbook of the period.

Mease published the first numismatic article, "Description of Some of the Medals Struck in Relation to Important Events in North America" in Volume 3 of the 1821 Collections of the New-York Historical Society. The article described the Penn medal, the Comitia Americana series, and medals struck in honor of military and naval heroes of the War of 1812—54 medals total.

Many of Mease's papers were read before the American Philosophical Society, to which he was elected in 1802 and was an officer from 1824 to 1836. He was a founder and first vice president of the Athenaeum of Philadelphia. Today, his papers are in the Louise M. Darling Biomedical Library's History and Special Collections division at the University of California at Los Angeles. There is also a collection of his writings at Duke University's David M. Rubenstein Rare Book & Manuscript Library.

Mease married Sarah Butler, the daughter of a South Carolina senator, on July 3, 1800. They had two sons. James Mease died in Philadelphia on May 14, 1846, and was buried in the cemetery of Third Presbyterian Church.
